888-DENTAL-CARE

44 Let Your Smile Blossom

HUMAN RESOURCES

We can not only help you find the right people, but also everything that goes along with it.

INSURANCE REIMBURSEMENTS

We deal with the insurance companies so you don't have to. You can concentrate on your practice.

SUPPLY & LAB COSTS

We leverage our volume to keep your costs down and your bottom line up.

SMILE PARTNERS

HOW IS SMILE PARTNERS DIFFERENT?

The Smile Partners network was founded by a dentist with the thought of allowing the clinician to focus on what they went to school for. We don't have a one-sided approach when it comes to clinical and non-clinical aspects of the dental business. Every affiliation is different. Every relationship is different. With over 35 years experience, Smile Partners provides our affiliated practices the peace of mind of knowing that staffing, purchasing, information technology, marketing, financials and operations are all accounted for. We help you maximize your return by practicing clinically, while we manage the business.

HOW DOES SMILE PARTNERS WORK?

At Smile Partners, we know how hard it is to run a business. We also know that when you went to dental school, you didn't envision the landscape of the dental industry to change as much as it has in the past ten years. According to the National Association of Dental Plans, around 80% of all dental policies sold today are PPOs. How do you manage those reimbursements? Because of our participation power, we have consistently higher reimbursements than a private practice or small group.
